

**JOURNAL**

**OFFICE OF LEGISLATIVE COUNSEL**

**Monday - 16 May 1960**

25X1  
25X1A  
1. [REDACTED] Max Lehrer, staff member of the Senate Space Committee, called and said they would be interested in a briefing on the latest Soviet shot. After checking with [REDACTED] OSI, I advised Lehrer and Ken Belieu that we really had not pulled together all the information on this shot and at the moment did not have much more information than they could read in the paper. Lehrer and Belieu understood this and asked that we keep a briefing in mind as soon as we felt we had sufficient information on this.

25X1  
2. [REDACTED] Betty Goetz, staff assistant on Senator Humphrey's Disarmament Subcommittee, called around 4:00 and said the Senator had been getting a lot of questions about recent events and would like to come over and get a run down from the Director or General Cabell. Arrangements were made for the Senator to see General Cabell at 5:00 but the Senator subsequently decided that in view of the time factors he would defer his visit until another time. Betty Goetz is to call us.
